Westinghouse requests a waiver of the 30 day waiting requirement as we urgently need to send a tubing specimen for qualification purposes in early April to meet our June delivery date.

The NRC license amendment fee of \$230 for this request was previously received by the NRC, so this check is not included in this transmittal.

Should there be any questions on this request, please contact the undersigned at (412) 374-4754. Thank you for your prompt attention to this urgent amendment request.

Very truly yours,
