Subject: UniStar Nuclear Energy, NRC Docket No. 52-016
Response to Request for Additional Information for the
Calvert Cliffs Nuclear Power Plant, Unit 3,
RAI No. 133, Part 1: Introduction and Interfaces

Reference: UniStar Nuclear Energy Letter UN#09-370, from Greg Gibson to Document
Control Desk, U.S. NRC, Response to RAI No. 133, Part 1: Introduction and
Interfaces, dated September 1, 2009

The purpose of this letter is to provide updated schedule information for the response to Request for Additional Information (RAI) 133. RAI 133 addresses ownership and corporate organizational structure for the Calvert Cliffs Nuclear Power Plant (CCNPP) Unit 3, as discussed in Part 1 of the CCNPP Unit 3 Combined License Application (COLA), Revision 6.

The referenced letter anticipated that the response would be provided by November 13, 2009. As you are probably aware from public media announcements, the joint venture between Electricite de France and Constellation was recently approved. Accordingly, UniStar Nuclear Energy requires additional time to finalize the response to RAI 133. A response will be provided to the NRC by December 4, 2009.

There are no regulatory commitments identified in this letter. This letter does not contain any proprietary or sensitive information.
