Division of Waste Management and Environmental Protection
Office of Federal and State Materials and Environmental Management Programs
U.S. Nuclear Regulatory Commission
Mail Stop T8-F5
Washington D.C. 20555-0001

Subject: Staffing Change

Dear Mr. McConnell:

Steve Collings, president, Crow Butte Resources, Inc. d/b/a Cameco Resources, will be changing roles after a long and successful tenure as president. Steve will stay with Cameco Resources in a senior advisor role reporting to Tim Gitzel, chief operating officer, working on special projects. He will continue in his current capacity until a new president is appointed, at which point he will transition into his new role.

Effective immediately, Tom Young has been appointed vice-president of operations at Crow Butte Resources, Inc. d/b/a Cameco Resources. Tom's extensive experience and strong environmental and engineering background will aid in his transition to leading the operations group. He holds a B. Sc. in mining engineering and a M. Sc. in environmental science and engineering from the Colorado School of Mines and an MBA in finance from the University of Denver.

In addition, the Lakewood divisional office will be relocated to Cheyenne, Wyoming, with a tentative move date of February 1, 2010. This move will allow the office to be closer to the Casper office and the Smith Ranch-Highland and Crow Butte operations.

If you have any questions, please do not hesitate to call me at (308) 665-2215 ext 114 or Tom Young at (720) 879-5534.

Sincerely,

Larry Teahon
Manager of Health, Safety, and Environmental Affairs
