Re: Florida Power & Light Company
Proposed Turkey Point Units 6 and 7
Docket Nos. 52-040 and 52-041
Notification to Withdraw Request for a Limited Work Authorization

Reference: FPL Letter to NRC, L-2009-144 dated June 30, 2009, Application for Combined License for Turkey Point Units 6 and 7

In the referenced letter, Florida Power & Light Company (FPL) submitted an application for a combined license (COL) for Turkey Point Units 6 and 7 to be located in Miami-Dade County, FL. The COL Application was supplemented by FPL letters L-2009-145 dated June 30, 2009, L-2009-174 dated July 21, 2009, and L-2009-185 dated August 7, 2009.

Pursuant to 10 CFR 50.10(d), FPL requested that a Limited Work Authorization (LWA) be issued before the COL to perform certain construction activities. Activities included within the scope of the LWA are addressed in the COL Application Part 6, Limited Work Authorization and Site Redress Plan.

FPL continuously evaluates the benefits and risks associated with project decisions. Current evaluations illustrate that the considerable activity necessary to obtain approvals and prepare the site for construction reduces the streamlining effect originally estimated. Therefore, FPL withdraws the request for the LWA in order to provide the best opportunity to maintain our current project schedule.

Conforming changes to the COL Application reflecting the removal of the LWA are not being proposed at this time, but will be included in an update of the final safety analysis report (FSAR), environmental report, and other COL Parts.
