SUBJECT: UPDATE OF THE GENERIC ISSUE MANAGEMENT CONTROL
SYSTEM REPORT (FY 2010, Q1)

The purpose of this memorandum is to request information regarding generic issues (GIs) for the first quarterly report of fiscal year (FY) 2010. This information will enable the Generic Issues Program (GIP) staff to update the Generic Issue Management Control System (GIMCS) report.

The staff will revise the GIMCS report to reflect the status of all GIs that remain incomplete as of November 30, 2009. In early December 2009, a GIP representative will arrange to meet with the members of your staff who are responsible for each GI (as indicated in the checklist in Enclosure 1 to this memorandum) in order to obtain status updates. In particular, updates should include any changes to the status presented in the GIMCS Report for the 4th quarter of FY 2009 (Agency-wide Documents Access and Management System [ADAMS] Accession no. ML092800202).

Please note that GIMCS information is available for use by the public and other Government agencies. Thus, your staff should provide only information that can become publicly available. In addition, updates should be clear, concise, and accurate.

Enclosure 2 is a blank GI Status Update Form which can be used to provide update information. Other methods of providing update information can be arranged with the GIP staff as well. A GIP representative will provide a copy of specific GI information from the most recent GIMCS report. GI information from previous GIMCS reports is also available on the NRC public website at: <http://www.nrc.gov/about-nrc/regulatory/gen-issues.html>
