Rob,

Attached is DRAFT RAI No. 192 (eRAI No. 3931). You have until November 24, 2009 to review it and decide whether you need a conference call to discuss it before the final issuance. After the call or after November 24, 2009, the RAI will be finalized and sent to you for response. You will then have 30 days to respond.

Thanks.

SURINDER ARORA, PE
PROJECT MANAGER,
Office of New Reactors
US Nuclear Regulatory Commission

Docket No. 52-016
SRP Section: 17.06 - Maintenance Rule
Application Section: 17.06

QUESTIONS for PRA Licensing, Operations Support and Maintenance Branch 1 (AP1000/EPR Projects) (SPLA)

17.06-2

(Follow-up to Question 17.06-2 of RAI 62) The response to Question 17.06-2 of RAI 62 does not appear to be consistent with the most recent revision to the U.S. EPR FSAR as described by AREVA in its response to Question 17.06-1 of RAI 226 in the U.S. EPR design certification process. Specifically, in its response to RAI 226, AREVA added a new Section "17.6.7 Maintenance Rule Program Relationship with Industry Operating Experience Activities" to the U.S. EPR FSAR Tier 2, Section 17.6 and revised Table 1.8-2 to indicate a new section number for COL Item 17.6-8. Please modify the CCNPP Unit 3 COLA FSAR accordingly, or justify an alternative.
