RE: Portsmouth Gaseous Diffusion Plant

Steve,

I am responding to the United States Enrichment Corporation (USEC) letter, dated September 23, 2009, signed by Steven Toelle, Director, Regulatory Affairs, in which USEC transmitted its request to modify USEC's response to the NRC issuance of orders for interim compensatory safeguard measures regarding Portsmouth Gaseous Diffusion Plant (PORTS).

As part of the screening process, the NRC staff has completed the review of the information that USEC provided on September 23, 2009, and found the information acceptable for detailed review. During this review, we will notify you if any additional information, or clarification of existing information, is needed. The staff efforts associated with this review is charged to Technical Assignment Control (TAC) number L32734.

Based on our preliminary review and projection of current review schedules, we anticipate the completion of our review of your request by mid April 2010. This date could change depending on the findings of our technical/administrative review, urgent assignments, or other factors. We will promptly communicate any significant changes to this schedule.

If you have any questions, please contact me at (301) 492-3217 or via e-mail to tilda.liu@nrc.gov.
