Urgent For Review Please Comment Please Reply Please Recycle

Ma. Simmons, per our phone conversation from earlier today the following information is provided. I contacted St. James Mercy Hospital in Hornell, NY and had them fax me their latest complete NY State Radioactive Materials License. It is Amendment #33 dated November 8, 2005. When you review this document (which is attached) you will find that it lists all the uses of RAM approved under the license and the uses approved for each authorized user including Dr. McDonnell. Please let me know if you need me to track down the New York State rule citations address in the license. An internet search indicated that 10 NYCRR16.123(b)(1) was equivalent to 10 CFR 35.100 and 10 NYCRR16.123(b)(2) was equivalent to 10 CFR 35.200.

Thank you for your assistance and please call if you need additional information.

Dean A. Taylor, M.S.
Radiation Safety Consultant
