Dear Toye L. Simmons:

I am writing to request an amendment to Radioactive Material License No: 24-26162-01 expiration date January 31, 2016. At this time, I have only one amendment I would like to make. April 27, 2009 we purchased another nuclear density gauge from Troxler Electronic Labs. It is a Troxler 4640 series with a source serial number 77-8609 and a gauge serial number 61830. We received the gauge on May 12, 2009 and need to amend the license to include another gauge. The gauge has the same source, Cesium-137, as the gauge listed on our current license. I am attaching a copy of sales order acknowledgment for your convenience.

If you have any questions or need further information, please contact me at any time. I appreciate you time and attention to this matter.

Sincerely,

Jennifer Breuer, RSO
