Subject: Additional information for amendment request

(NOTE: This will be used as the Documents Title in ADAMS)

This record represents a series of e-mail communications on the above-listed dates. This request is to add 2 authorized users to the gamma knife (model 4C) license.

Mike asked for this request to be expedited.

I asked him to provide preceptor attestations for Drs. Yu and McGibbon for the model 4C gamma knife. I noted that the submitted training certificates show the name of the University of Pittsburgh course as "Principles and Practices of Gamma Knife Radiosurgery, Special Emphasis on Perfexion Training," and asked for the course outline. This is to confirm that all topics in 35.690(c) were covered for model 4C, as well as the differences between 4C and Perfexion.

Action Required: Await response from licensee
