Dear Toye:

This letter is in response to your request for additional information regarding **control number 318434** for Radioactive Materials License #24-25816-01 (Truman Medical Center, 2301 Holmes Street, Kansas City, MO 64108).

After several attempts to reach Dr. Lazar and have him fax up a copy of the license listing him as an authorized user and making him eligible to preceptor Dr. Paramdeep Beweja, we still do not have a copy of the license. We will resubmit when we have a copy available to send in with the request.

As for Dr. Gianturco, a copy of the license is included with this fax. The hospital holds a broad scope license, so the physicians are not listed on the actual license. However, they did supply us with a list of Authorized Users for the license and that has been included for your review. At this time, we would like to have the following physician added to our license as an authorized user for 35.200 specific to nuclear cardiology only:

Muhammad Javed Ashraf, MD MPH

Should you have any questions, please contact me at 816-807-8090 or by fax at 816-974-1443.

Sincerely,

Marcia R. West
