Glenda,

Good morning and thank you for providing me with your email to introduce myself to Gregory Jaczko.

My name is Erica Jablonsky, Business Development Manager, with American Substance Abuse Professionals® (ASAP) located in Baltimore, Maryland. For over 12 years, ASAP has been providing Substance Abuse Professional (SAP) evaluation and case management services to individuals referred by employers required to comply with DOT and NRC regulations.

Dr. Reed Morrison, ASAP CEO, recently published an article (attached) in Addiction Professional magazine about meeting the Substance Abuse Expert (SAE) training requirements of the NRC 'fitness for duty program' 10 CFR Part 26.

Our goal is to promote awareness of the changes taking place, develop a qualified SAE provider network through a nationally recognized training program and to deliver comprehensive SAE referral and case management compliance to plant owner-operators.

I specifically would like to speak with Gregory on these topics and to develop a liaison within the NRC, much like we have within the DOT modes, to help interpret and administer the new guidelines accurately.

If I don't hear from you via email, I will give you a call next week to follow up.

Sincerely,

Erica Jablonsky | Business Development Manager | ASAP, Inc.
