Mike,

Attached is the revised Matrix we discussed last Friday with pointers to the text, tables and figures of interest. I understand the reviewers need some time to digest the material. When you have an idea as to when the reviewers will be

ready for a follow-up conference call, please propose a day and time. We can use my bridge line again if that works for you.

Thanks Mike. Friday at noon EDT (11am CDT) will work for us. I suggest we use my bridge (866-857-6769, code 2548976887). Also I have attached a matrix that relates the RAI questions to material already provided by Luminant on the reading room or the docket. It might be useful for your reviewers to look at this matrix before the conference call. In several cases, we intend to respond to the RAI by directing the reviewer to this material. We want to confirm that we are being responsive to their needs or identify what additional answers they might need.

Don,

Somewhere between noon and 2 pm on Friday works best for the NRC and contractors. let us know.

Thanks,

Mike

Mike-

I just heard back from our groundwater contractor and he has confirmed that the friday timeframe between noon and 2:00pm will work for him as well. So we have everyone we need on this end available for that time. Hopefully this is a time that will work for Luminant and their contractors. If this works just let me know and I will communicate that back to our contractors so they can prepare.

Thanks

Dan

I appreciate it Dan. I prefer the noon to 2pm timeframe, I have a meeting from 10 - 11am. Hopefully the ORNL contractor will be available and the time will work for Luminent.

Thanks,

Mike

Mike-

I am. We are currently waiting to hear back from one of our ORNL contractors regarding his availability to support a call this week. I can ask him about friday specifically. Our surface water expert, Brennan Smith, is available on friday from 8:30 am -10:30 am or noon to 2:00pm, so it would need to fit within that framework.

I'll let you know about our groundwater expert, Dave Watson. Again, I am waiting to hear back from him and we need him involved.

Thanks

Dan

Dan,

Are you available this Friday for a conference call with Luminent to discuss the subject issue?

Thanks,

Mike

Mike,

We will try to make this happen. Right now we are looking at Friday the 16th. We are also trying to schedule a call with Michael Willingham on the same day regarding the ER review. That works well for us because both calls involve the same subject matter experts. I will get back to you as soon as I can.
