SUBJECT: INTEGRATED SAFETY ANALYSIS SUMMARY UPDATE, REVISION 10 (TAC L32846)

Dear Mr. Cowne:

On June 11, 2009, you transmitted an update to your Integrated Safety Analysis (ISA) Summary to account for changes in documenting a phased approach to conducting operations while construction is ongoing. An additional section is noted to be added to the ISA Summary, Section 3.9, Phased Operation. On October 23, 2009, Louisiana Energy Services submitted a response to the U.S. Nuclear Regulatory Commission (NRC) Request for Additional Information (RAI) dated September 24, 2009. On November 3, 2009, you submitted updates to several licensing basis documents, and the ISA Summary, providing a more detailed description of phased operations. Our review of the ISA Summary update of June 11, 2009, was not completed. However, we will apply resources to the review of these latest submitted documents.

Our efforts on review of this document are concluded and TAC L32846 is closed.
