Subject: Submittal of NEI 08-02, Revision 3 (Draft), *Corrective Action Processes for New Nuclear Power Plants During Construction*, November 2009

Project Number: 689

This letter provides NEI 08-02, Revision 3 (Draft), *Corrective Action Processes for New Nuclear Power Plants During Construction*, for NRC review. This document has been updated to address NRC comments provided in a public meeting on October 28, 2009. We plan to issue the document as Revision 3 (Final) and request NRC endorsement upon confirmation that the staff's comments have been adequately addressed. If needed, we would be pleased to meet with the staff to answer any questions and facilitate the endorsement process.

Please find attached a redline version of NEI 08-02 that highlights the changes made based on the staff's recent feedback (Attachment 1), a clean version (Attachment 2), as well as responses to comments made by NRC staff during the October 28, 2009 public meeting (Attachment 3).

If you have any questions, please contact me or Jim Fisicaro (202-739-8018; jjf@nei.org).

Sincerely,
