Amendment No. 02

If the jurisdiction status of a Federal facility within an Agreement State is unknown, the licensee should contact the federal agency controlling the job site in questions to determine whether the proposed job site is an area of exclusive Federal jurisdiction. Authorization for use of radioactive materials at job sites in Agreement States not under exclusive Federal jurisdiction shall be obtained from the appropriate state regulatory agency.

11. The licensee shall not vacate or release to unrestricted use a field office or storage location whose address is identified in Condition 10, without prior U.S. Nuclear Regulatory Commission approval.
12. The licensee shall notify U.S. Nuclear Regulatory Commission of the opening of additional field offices in non-Agreement States within 7 days thereafter.
13. A. Licensed materials shall be used by, or under the supervision and in the physical presence of, or individuals who have been trained as specified in the application dated June 6, 2007 and letter dated October 31, 2007.
B. The Radiation Safety Officer for this license is Charles T. Kelsey, III, Ph.D.
14. Each source holder or logging tool containing radioactive material shall bear a legible and visible marking as specified in 10 CFR 39.31(a). The label must be on the smallest component that contains the licensed materials which is transported as a separate piece of equipment.
15. The opening, repair, or modification of an Energy Compensation Source must be performed by persons specifically approved to do so by the Commission or an Agreement State.
16. Notwithstanding the periodic leak test required by 10 CFR 39.35, the requirement does not apply to sources, except sources containing plutonium, that are stored and not being used. The sources exempted from this periodic test shall be tested for leakage before use or transfer to another person. No sealed source shall be stored for a period of more than 10 years without being tested for leakage and/or contamination.
17. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR 30.35(d) for establishing decommissioning financial assurance.
