News!

The MDE Updated Cleanup Standards for Soil and Groundwater (Update No. 2.1, Revised June 2008) are located on the blue column to the right, were revised in June 2008, to incorporate SMCL's for Iron, Aluminum, Silver, Manganese and Zinc. Additionally, dermal contact exposure parameters were revised to more clearly define revisions as presented in RAGs part E.

What is Vapor Intrusion? How is it identified? How can it be mitigated? Click [here](#) to view the informational Vapor Intrusion Guidance Factsheet. View the Brownfields and Vapor Intrusion Seminar [presentation](#) from August 7, 2008.

ASTM Vapor Intrusion Training

ASTM International has scheduled a training class in Arlington, Virginia on

February 11, 2009, regarding Screening Properties for Real Estate Transactions for Potential Vapor Intrusion Issues.

A representative from Maryland Department of the Environment Voluntary Cleanup Program will attend this class to discuss the Voluntary Cleanup Program and to answer any questions.

Please review the ASTM [brochure](#) and [registration form](#).

Voluntary Cleanup Program Workshop. For more information regarding future events, please call 410-537-3493.

Please check back for additional workshop dates and time.
