I note that neither the title nor the note for this tqable specifically makes an exclusionary statement and the QAPD references are not worded as exceptions. Clarity is therefore required to understand PPL's position relateive to chatper 17 and the QAPD.

We previously discussed this in telcon. Are you prepered to respond to this one?

Mike,

Draft RAI 71 provides an unclear problem statement. The RAI text identifies that FSAR Table 1.9-1 provides a listing of Regulatory Guides where BBNPP conformance is listed. This is not the case. FSAR Table 1.9-1 lists those Regulatory Guides where exceptions are taken or full adherence is not achieved. Please read the "Note" under the Table title for each of the three Table pages in the attached file.

If this is unclear to the reviewer, we can schedule a call for clarification. Please let me know what you believe the best way is to reconcile the question.

Kind regards,
Jim
