Subject: Yesterday's Phone Call

Mike,

Relative to the question the reviewer asked yesterday about the distances in Table 2.2-10 for gasoline, I have reviewed the technical input from S&L, the configuration control document used to change the COLA and the RAI response we submitted. Those documents all reflect a distance of 823 ft, not 343 ft. Can you have the reviewer confirm the document he was referencing in the discussion?

Thanks,
Jim
