**Significant Change in
Facility Administration**

Re: Facility License R-56, Docket Number 50-83

As required by our Technical Specifications, Section 6.6.3, Paragraph(1), we are reporting a significant change in our facility organization at Level 1 and Level 2. Level 1 is the level responsible for the University of Florida Training Reactor (UFTR) facility's licenses, charter, and site administration. Level 2 is the level responsible for the reactor facility management at the University of Florida Training Reactor (UFTR).

Dr. Alireza Haghghat had filled the Level 1 position, Chairman of Nuclear and Radiological Engineering Department for many years and served as Level 2 Interim Director of UFTR since October 2008. Effective September 4, 2009 Dr. David Hintenlang will serve as Interim Chairman of Nuclear and Radiological Engineering Department. Dr. Haghghat will serve as Director of UFTR.

If further information is needed please let us know.

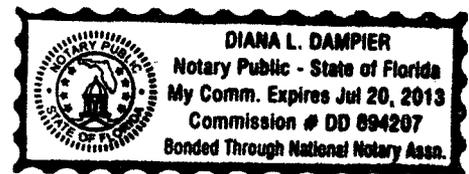

Thank you for your consideration.

Sincerely,

Brian Shea
Reactor Manager UFTR
