Chris - See ML092660481. It appears that this item has been public since 10/30, and likely went public at the same time the October hearing file update went out.

Please let me know if there's anything else you need.

Best,  
Drew

I never tracked it down. If it is readily available we would still like it. Thanks.

Drew - Please see the attached document which is an email from you to Dara Gray at Entergy regarding a document related to impingement and entrainment flows. Department staff could not find the document you reference in the email that was to be made publically available. You can you provide either the document itself or the ML number. Thanks.
