Subject: RE: Action Request: Environmental Report Plates

Ron;

Thanks you for the email notifying us of the "confidential" markings on the 7 plates in the Environmental Report. I regret that the plates were included inadvertently. Powertech (USA) Inc. agrees that the plates should not be marked confidential and that they can be made available for public viewing. We will be forwarding a single set of the plates for replacement in the ER. Please let me know if you need additional copies. At your request, we can also make them available electronically in the form of a CD.

Subject: Action Request: Environmental Report Plates
Importance: High

Dear Mr. Blubaugh:

In the effort of placing your application into our document system (ADAMS), we ran into a small glitch. There are several plates from the Environmental Report that are marked CONFIDENTIAL. Please see the list below.

Plate 3.3-4, Structure Map Top of the Unkpapa
Plate 3.3-10, Cross Section Index, Fall River & Custer Counties
Plate 3.3-11, Ore Cross Section A-A' Fall River County
Plate 3.3-12, Ore Cross Section F-F' Fall River County
Plate 3.3-13, Ore Cross Section H-H'" Fall River & Custer Counties
Plate 3.3-14, Ore Cross Section J-J' Fall River & Custer Counties

Plate 6.1-1, Sampling Locations

Did you intend to withhold these documents from the public in accordance with 10 CFR 2.390 or was the marking an oversight? If you do want these withheld, then we will need you to address the requirements of 10 CFR 2.390 including the submittal of an affidavit. In addition, if you choose to withhold this information, please provide a version that could be entered into the public domain.

When you respond to this e-mail please include Ms. Garrett as I will be out of the office for the next two weeks.

Regards,

Ron
