Robert J. Lewis, Deputy Director  
Division Materials Safety and State Agreements  
Office of Federal and State Materials and  
Environmental Management Programs  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555-0001

Dear Mr. Lewis:

I am submitting an electronic document containing final regulation in the Louisiana Administrative Code, Title 33, Part XV, Radiation Protection. One amendment from RATS IDS 2006-1. Also, I have submitted electronic copies via e-mail to Ms. Monica Orendi of your staff.

This rule package consists entirely of regulations that are required for purposes of compatibility (category A, B, or C) as indicated by the compatibility chart attached. All of the regulations in this package should meet NRC compatibility criteria. Wherever possible, the editor inserted the exact wording of the 10 CFR rules into the amendment, and followed Federal Register guidelines regarding Agreement State compatibility.

<u>Rats ID</u>	<u>Title</u>	<u>State Section</u>
2006-1	Minor Amendments-Part 20, 30, 32, 35, 40, and 70	Chapters 1,3,4, & 7

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure SA-200.

If you have any questions, please feel free to contact me at (225) 219-3041 or Ann Troxler or Joseph Noble E-Mail Addresses, [ann.troxler@la.gov](mailto:ann.troxler@la.gov) or [joe.noble@la.gov](mailto:joe.noble@la.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeff Meyers".

Jeffrey P. Meyers, Administrator  
Emergency and Radiological Services

Enclosure:  
As stated
