December 2, 2009

Mr. Joseph Kowalewski
Vice President, Operations
Entergy Operations, Inc.
Waterford Steam Electric Station, Unit 3
17265 River Road
Killona, LA 70057-3093

SUBJECT: WATERFORD STEAM ELECTRIC STATION INDEPENDENT SPENT FUEL
STORAGE INSTALLATION – CORRECTION OF NOVEMBER 20, 2009,
PHYSICAL PROTECTION AND ACCESS AUTHORIZATION SECURITY
INFORMATION LETTER

Dear Mr. Kowalewski:

The salutation in the letter dated November 20, 2009, (Agencywide Documents Access and Management System No. ML093270155) from Mr. L. Raynard Wharton to you was incorrect. To ensure that all recipients receive the corrected letter, we are including it as an enclosure.

We apologize for any inconvenience this may have caused.

Sincerely,

A handwritten signature in black ink that reads "L. Raynard Wharton".

17265 River Road
Killona, LA 70057-3093

**SUBJECT: WATERFORD STEAM ELECTRIC STATION INDEPENDENT SPENT FUEL
STORAGE INSTALLATION - PHYSICAL PROTECTION AND ACCESS
AUTHORIZATION SECURITY INFORMATION**

Dear Mr. Kowalewski:

The purpose of this letter is to provide you with the physical protection and access authorization program information pertinent to your future plans to store spent fuel at an independent spent fuel storage installation (ISFSI) at the Waterford Steam Electric Station. The existing regulations provide the basis for the physical protection and access authorization controls needed at an ISFSI. The U.S. Nuclear Regulatory Commission (NRC or Commission) has imposed additional security measures (ASMs) for physical protection and access authorization on operational ISFSIs and ISFSIs within 15 months of spent fuel loading, to address the current threat environment. These ASMs, and the Regulatory Information Summary regarding the NRC Threat Advisory and Protective Measures System for ISFSIs, are enclosed for your information and general consideration.

The Commission's regulations are, of course, subject to revision through rulemaking. Further, the ASMs could be altered if a significant change in the threat environment has occurred, or the Commission determines that other changes are needed. We will endeavor to keep you informed of any potential changes to the Commission's regulations or any changes to supplemental safeguards which could be the subject of subsequent Orders to future ISFSIs.

Two of the enclosures to this letter contain Safeguards Information (SGI), as described in 10 CFR 73.21, and must be withheld from public disclosure. This information is being provided

WARNING: Violation of Section 147 of the Atomic Energy Act, "Safeguards Information," is subject to Civil and Criminal penalties.

NOTICE: Upon removal of Enclosures 1 and 3 to this letter, this document is DECONTROLLED.
