Dear Mr. Moore:

In accordance with instructions in 10 CFR 110.4 we are providing the attached NRC Form 7 as notification of EnergySolutions' intent to export one tanker with residual incidental radioactive material to Bruce Power Station in Ontario, Canada.

This tanker is dedicated to radioactive materials shipments and the interiors contain a small heel of contaminated material, albeit at very low levels. The tanker is being exported under the General License for Export provisions of 10 CFR 110.23(c) for By-Product Material. The loaded tanker will subsequently be collected by Monserco (a licensed Canadian broker) and eventually shipped to EnergySolutions' Oak Ridge, TN processing facility as authorized by IW017.

Contact me if additional information or clarification is required.

Respectfully,

Philip Gianutsos, CHP
Radiation Safety Officer
Commercial Processing Division
