Attachments: Amendment letter to remove condition 10.D.ii.pdf

Dear Mr. Torres:

Thank you for getting back to us so soon on this request. Michelle is out of the office for the next two weeks, so I have attached an Amendment to remove condition 10.D.(ii) from our RML number 40-32477-01.

Thank you again for your time and expediting this request.

Have a great day,

Mary

I got word back. License condition 10.D.(ii) can be removed from your license. Please send an email requesting that license condition 10.D.(ii) be removed from the license due to the change in definition of byproduct material and because it no longer reflects current business practice regarding the offering of PET/CT services. Send the email directly to me so I can expedite the amendment.

Roberto

Subject: request for interpretation

Dear Mr. Torres,

DMS Health Technologies, License #40-32477-01 has an item that we request an interpretation on. Item 10.D.(ii) The hospital does not have a byproduct material license under Section 35.18 of 10 CFR Part 35,

My concern is that we perform PET/CT at facilities that have byproduct licenses for general nuclear medicine. DMS does not want to inadvertently be in violation.

Thank you in advance for your assistance.

Michelle White

Radiation Safety Officer

License condition 10. D is not standard and
Medical Radiation Safety Team on meeting held on
12/3/09 instructed R-IV to remove L.C. 10.D
from all mobile nuclear service provider licenses.
Therefore a corrected copy will be issued.

↗ is outdated

RE: RAM license number 40-32477-01

Mr. Roberto J. Torres:

We wish to amend our Radioactive Material License number 40-32477-01 to remove license condition 10.D. (ii). Due to the change in definition of byproduct material this statement no longer reflects our current business practice regarding the offerings of PET/CT services here at DMS Health Technologies.

Thank you for your help and please feel free to contact Michelle White at 605-357-2610 or myself at 605-357-2604.

Sincerely,

Mary Hennings-Frank, B.S., CNMT
