

J. Phillip Bayne
Executive Vice President
Nuclear Generation

September 15, 1983
IPN-83-78

Director of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Mr. Steven A. Varga, Chief
Operating Reactors Branch No. 1
Division of Licensing

Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Proposed Changes to the Technical
Specifications related to Inservice Inspection

Reference: 1. July 15, 1983 NRC letter, S.A. Varga to
J.P. Bayne, regarding Inservice
Inspection at the Indian Point 3
Nuclear Generating Plant

Dear Sir:

Enclosed for filing are three (3) signed originals and nineteen (19) copies of a document entitled, "Application for Amendment to Operating License, "together with forty (40) copies of Attachments I and II thereto, comprising a statement of the proposed changes to the Technical Specifications and the associated Safety Evaluation.

This application seeks to amend Section 4.2 of the Technical Specifications (Appendix A to the Operating License) and is being submitted in response to Reference 1. The proposed Technical Specification revisions reflect the previously approved inservice inspection (ISI) program for Indian Point 3.

The Authority has determined this application for amendment to be exempt from the fee schedule set forth in 10 CFR 170.22 on the basis that the proposed Technical Specification revisions serve to clarify the existing Specifications in light of the previously approved ISI program for Indian Point 3.

In accordance with the requirements of 10 CFR 50.91 a copy of this application for amendment to the Operating License and the associated attachments is being submitted to the designated New York State official.

A001
