Office of Administration

Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Fees for Proposed Technical Specification
Amendment Reviews

Dear Sir:

Your letter of August 26, 1983 identified the following Authority applications, which were not remitted with the fees pursuant to 10 CFR 170.22:

- 1) A May 3, 1983 application for Technical Specification changes regarding site management organization.
- 2) A May 3, 1983 application for amendment of License Condition 2.I and Technical Specification changes regarding balance of plant chemistry, and
- 3) A June 1, 1983 application for Technical Specification changes regarding a number of NUREG-0737 items.

Pursuant to 10 CFR 170.22, the Authority interprets the review for Item 1 as requiring a Class II fee of \$1,200 and the review for Items 2 and 3 as each requiring a Class III fee of \$4,000. Accordingly, enclosed is a check in the amount of \$9,200, which the Authority pays under protest pending a final determination of the legality of the fee schedule.

Should you or your staff have any questions regarding this matter, please contact Mr. P. Kokolakis of my staff.
