POWER AUTHORITY OF THE STATE OF NEW YORK) Docket No. 50-286
)
Indian Point 3 Nuclear Power Plant)

APPLICATION FOR AMENDMENT TO
OPERATING LICENSE

Pursuant to Section 50.90 of the regulations of the Nuclear Regulatory Commission (NRC), the Power Authority of the State of New York, as holder of Facility Operating License No. DPR-64, hereby applies for an amendment to the Technical Specifications contained in Appendix A of this License.

The proposed changes to the Indian Point 3 Technical Specifications seek to amend certain portions of Section 1 ("Definitions") and Section 6 ("Administrative Controls") of Appendix A to the Operating License commensurate with Generic Letter No. 83-43 ("Reporting Requirements of 10 CFR 50, Sections 50.72 and 50.73, and Standard Technical Specifications") dated December 19, 1983. In addition, this application seeks to more accurately reflect the plant organization depicted in Figure 6.2-2 by changing the title of the position referred to as "Reactor Analyst" to that of "Site Reactor Engineer." This application also seeks to amend the voting member for the position of SRC Vice-Chairman from "Vice President - Quality Assurance" to that of "Director - Quality Assurance" and to provide for an Alternate Vice-Chairman.

The proposed changes to the Technical Specifications are presented in Attachment I to this Application. The Safety Evaluation is included in Attachment II.
