Docket No. 50-286  
Fees Pursuant to 10 CFR 170

Dear Ms. Diggs:

Your April 9, 1985 letter stated that the Authority's February 17, 1984 submittal of proposed Technical Specification changes for certain NUREG-0737 items were not exempt from the fees pursuant to 10 CFR 170.22 (March 23, 1978) per Footnote 2 thereto. The Office of Nuclear Reactor Regulation has determined that a Class III fee of \$4,000 is appropriate for the February 17, 1984 application as the review will involve consideration of a single safety issue. Accordingly, enclosed is a check in the amount of \$4,000 in payment of the applicable fees. It should be noted that the Authority is paying this fee under protest, pending resolution of the legality of the fee schedule.

Should you or your staff have any questions regarding this matter, please contact Mr. P. Kokolakis of my staff.

Very truly yours,

J. P. Bayne
