Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Proposed Technical Specifications Regarding
Movable Incore Neutron Detector Guide Thimbles

Dear Sir:

This application seeks to revise Appendix A, Sections 3.10 and 3.11 of the Operating License. The proposed change will revise the minimum number of operable movable incore neutron detector guide thimbles required for the incore/excore detector calibration. This application also seeks to establish a limit for the minimum number of operable thimbles required for the generation of the monthly full core flux map.

Enclosed for filing is the signed original of a document entitled, "Application for Amendment to Operating License," together with one copy of Attachment I and II thereto, comprising a statement of the proposed changes to the Technical Specifications and the associated Safety Evaluation.

In accordance with 10 CFR 170.12, a check in the amount of \$150.00 is enclosed as payment of the application fee for the review of these proposed changes to the Technical Specifications.

In accordance with 10 CFR 50.91, a copy of this application and the associated attachments is being submitted to the designated New York State Official.

Should you or your staff have any questions regarding this matter, please contact Mr. P. Kokolakis of my staff.

Very truly yours,

A handwritten signature of John C. Brons in dark ink.
