 2. Regulatory Guide 1.16, Revision 4, August 1975, "Reporting of Operating Information-Appendix A Technical Specifications"

Dear Sir:

This application for amendment to the Indian Point 3 Technical Specifications seeks to revise the requirements for Monthly Operating Reports to conform to those of the Standard Technical Specifications (Reference 1), including the reporting of relief and safety valve challenges on a monthly rather than an annual basis. This change will result in a streamlined Monthly Operating Report, eliminating redundancy, while providing the necessary information outlined in Regulatory Guide 1.16 (Reference 2).

Enclosed for filing is the signed original document entitled, "Application for Amendment to Operating License," together with Attachments I and II thereto, comprising a statement of the proposed changes to the Technical Specifications and the associated Safety Evaluation.

In accordance with 10 CFR 170.12, a check in the amount of \$150.00 is enclosed as payment of the application fee for the review of the proposed changes to the Technical Specifications.
