Docket No. 50-286

APPLICATION FOR AMENDMENT TO
OPERATING LICENSE

Pursuant to Section 50.90 of the regulations of the Nuclear Regulatory Commission (NRC), the Power Authority of the State of New York, as holder of Facility Operating License No. DPR-64, hereby applies for an Amendment to the Technical Specifications contained in Appendix A of this license.

This application seeks to revise the requirements of Technical Specifications Sections 6.9.1.4 through 6.9.1.6 (regarding Monthly Operating Reports) to conform to those of the Standard Technical Specifications, with the inclusion of the relief and safety valve challenges. These changes should result in a streamlined Monthly Operating Report that will provide the necessary information outlined in Regulatory Guide 1.16.

The proposed changes to the Technical Specifications are presented in Attachment I to this application. The Safety Evaluation corresponding to these changes is included in Attachment II.
