PDI-1 Plant file

Dear Mr. Brons:

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION FOR CLOSEOUT OF IE BULLETIN 79-15  
(TAC NO. 69567)

A review of our records indicates that IE Bulletin 79-15 "Deep Draft Pump Deficiencies," dated July 11, 1979, has not been closed out for the two Ingersoll-Rand containment recirculation pumps for Indian Point 3. The following additional information is required for us to complete our review of this issue.

1. The type and application of the pumps listed above.
2. Drawings, sectional assemblies and parts list of the subject pumps.
3. Applicable P&IDs of the subject pumps.
4. Detailed maintenance history of the subject pumps.
5. Testing requirements, procedures and results for both hydraulic and vibration parameters in recent years for the subject pumps.

Please provide this information within 60 days of the date of this letter.

The reporting and/or recordkeeping requirements of this letter affect fewer than ten respondents; therefore OMB clearance is not required under PL 96-511.

Sincerely,

Original signed by

Joseph D. Neighbors, Senior Project Manager  
Project Directorate I-1  
Division of Reactors Projects - I/II  
Office of Nuclear Reactor Regulation
