Attn: Document Control Desk

Subject: **Indian Point 3 Nuclear Power Plant**  
**Docket No. 50-286**  
**Proposed Changes to Technical Specifications**  
**Regarding Diesel Generator Allowed Outage Time**

Reference: 1. NYPA letter, J. C. Brons to the NRC, "Proposed Changes to Technical Specifications Regarding Diesel Generator Allowed Outage Time," dated July 10, 1990.

Dear Sir:

In a letter dated July 10, 1990 (Reference 1), the Authority submitted a proposed Technical Specification change to extend the emergency diesel generator allowed outage time from 72 hours to seven days. The first five lines of the second paragraph of Reference 1 were inadvertently omitted due to a word processing error. A revised first page of Reference 1 is attached to correct this omission.

If you have any questions about this subject, please contact Mr. P. Kokolakis of my staff.

Very truly yours,

  
**John C. Brons**  
Executive Vice President  
Nuclear Generation
