ATTN: Document Control Desk

Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Proposed Changes to Technical Specifications
Regarding The Removal of Containment Isolation Valves UH-37 and UH-38

Dear Sir:

This application for amendment to the Indian Point 3 Technical Specifications reflects the removal of Containment Isolation Valves UH-37 and UH-38. The technical specification changes to Table 3.6-1 and Table 4.4-1 (page 5 of 7) will eliminate the need for maintaining and testing valves UH-37 and UH-38.

The proposed changes are contained in Attachment I to the Application for Amendment enclosed with this letter, while the associated Safety Evaluation is provided in Attachment II.

Enclosed for filing is the signed original of a document entitled, "Application for Amendment to Operating License," together with one copy of Attachments I and II thereto, comprising a statement of the proposed changes to the Technical Specifications and the associated Safety Evaluation.

In accordance with 10 CFR 50.91, a copy of this application and the associated attachments are being submitted to the designated New York State Official.

Should you or your staff have any questions regarding this matter, please contact Mr. P. Kokolakis of my staff.

Very truly yours,

A handwritten signature in dark ink, appearing to read 'John C. Brons', is written over a printed name and title.
John C. Brons
