SUBJECT: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
**Proposed Technical Specification Changes to
Section 6, "Administrative Controls."**

Dear Sir:

This application for an amendment to the Indian Point 3 (IP3) Technical Specifications requests changes to Appendix A, Section 6, "Administrative Controls," to reflect a management reorganization designed to improve operations at the plant. The management reorganization includes position title changes, the creation of two new senior level management positions on the same tier as Superintendent of Power, the reassignment of position responsibilities, and the proposed restructuring of the Plant Operating Review Committee (PORC). Additionally, miscellaneous changes not related to the reorganization include the correction of typographical and inadvertent errors made by previous amendments, and font and repagination changes.

The signed original of the Application for Amendment to Operating License is enclosed for filing. Attachments I and II to this application contain the proposed changes to the Technical Specifications and the associated Safety Evaluation.

A copy of this application and the associated attachments are being provided to the designated New York State official in accordance with 10 CFR 50.91.

If you have any questions, please contact Mr. P. Kokolakis.

Very truly yours,

A handwritten signature in black ink, appearing to read 'R. Beedle', written over a horizontal line.
