Subject: Follow up to Telecon RE: HFE Topical

Good Afternoon TJ,

As discussed in the teleconference between NRC and B&W on Monday, December 7, 2009, I am providing information associated with a recent public meeting between the industry's new reactor operator licensing focus group and the NRC. The meeting summary for the October 15, 2009, HFE Meeting may be accessed from: <http://www.nrc.gov/reactors/new-reactor-op-lic/public-meetings/2009/>.

The focus group provided part 1 of the AP1000 knowledge and abilities (K & A) catalog for discussion. It may be accessed through ADAMS at ML092920303. In addition, Operator Licensing Process Position Paper, Revision C, may be accessed through ADAMS at ML092440070.

Please let me know if you need assistance accessing any of these publicly available documents.

Regards, Joelle
