Indian Point Unit No. 3
Docket No. 50-286

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

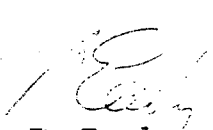

SUBJECT: Report on Zion/Indian Point Near Site Study

Dear Mr. Denton:

The report entitled, "Mitigation of Severe Accident Study Report-Zion and Indian Point Nuclear Units", was submitted to you via our June 5, 1980 letter. Inadvertently, Section 6 of this report was stamped Proprietary Class 2. This was an error and in fact the entire report is Non-Proprietary.

In addition, please note that hard copies of the report were not delivered with our June 5, 1980 letter since 30 copies were delivered to the NRC on June 4, 1980 by the Westinghouse Electric Corporation.

Very truly yours,

Paul J. Early
Vice President and
Assist. Chief Engineer
