Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Fracture-Toughness Design of Steam
Generator and Reactor Coolant Pump Supports

Dear Sir:

This letter is submitted to request an extension of the due date required to respond to your August 4, 1980 letter on the subject matter.

Following the August 27, 1980 meeting and discussions with Westinghouse it has been determined that additional time is necessary to obtain original support material records from the original suppliers. Therefore, the Authority requests a six (6) month extension of the original response date in order to provide an accurate and complete response.

Very truly yours,

J. P. Bayne
Senior Vice President
