Director of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. Steven A. Varga, Chief
Operating Reactors Branch No. 1
Division of Licensing

Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Offsite Dose Calculation Manual (ODCM)

Dear Sir:

This letter responds to your September 2, 1980 letter which requested a revised ODCM based on the Commission's review comments.

The Authority has reviewed each of the Commission's comments. In general, the bases for various equations, constants, and calculational methods are contained in Sections 2.4 and 3.4 of the IP-3 Environmental Technical Specifications.

The Authority will provide a revised ODCM incorporating these comments by January 1, 1981. This revision will require a significant amount of manpower and, to date, the appropriate personnel for this task have been required for health physics management support during our October 1980 inspection outage.

This matter has been discussed with Mr. L. Olshan of your staff who has indicated that this schedule is acceptable.

Very truly yours,

J. P. Bayne
Senior Vice President
Nuclear Generation
