Director of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Attention: Mr. Steven A. Varga, Chief  
Operating Reactors Branch No. 1  
Division of Licensing

Subject: Indian Point 3 Nuclear Power Plant  
Docket No. 50-286  
On-Site Safety Review Group

Dear Sir:

The purpose of this letter is to notify the Commission of a planned change to the reporting relationship of the On-site Safety Review Group (OSRG).

On April 11, 1980, the Authority provided a response (IPN-80-39) to the sixty day action items of the Commission's February 11, 1980 Confirmatory Order. In response to item C.6., the Authority stated that an OSRG had been established and that this group would report to the Authority's Senior Vice President-Nuclear Generation and the Consolidated Edison Vice President, Power Generation.

The Authority is planning to change the management position to which the OSRG reports. The OSRG will report to the Authority's Manager-Nuclear Operations rather than the Senior Vice President-Nuclear Generation. This change is being made to provide a closer and more efficient working relationship between the Authority offsite management organization and the OSRG. Since the OSRG will still be reporting to offsite management, the requirements of the Commission's February 11, 1980 Confirmatory Order will still be met.

*H*

The Authority considers this change to be acceptable to the Commission based on a conversation between Mr. L. Olshan and Mr. J. Lamberski on January 6, 1981.

Very truly yours,

  
J. P. Bayne  
Senior Vice President  
Nuclear Generation
