Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
James A. FitzPatrick Nuclear Power Plant
Docket No. 50-333
NRC Meeting Regarding the
Environmental Qualification of
Safety-Related Electrical Equipment

Dear Sir:

The Authority has received your letter of June 3, 1981 on the subject meeting scheduled for July 7 through July 10, 1981 in Bethesda, Maryland. Authority representatives will be attending this generic meeting. However, the Authority is concerned about what can actually be accomplished at this meeting of perhaps some 300-400 attendees regarding the specific environmental qualification problems on our Indian Point 3 and FitzPatrick facilities. Accordingly, the Authority does not consider this generic meeting to be a substitute for plant specific environmental qualification meetings with the NRC staff. The Authority hereby reserves its right to request plant specific meetings should such meetings be necessary.

Very truly yours,

G. M. Wilounding
