Operating Reactors Branch No. 1
Division of Licensing

Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Proposed Changes to the Technical Specifications
Related to Snubber Surveillance

Dear Sir:

This letter requests an extension of the submittal date for the subject technical specifications previously scheduled for October 23, 1981.

As a result of the current unscheduled steam generator inspection, the Authority has been unable to devote sufficient manpower to this task. It is estimated that a one month extension to November 23, 1981 will suffice to prepare this submittal.

This matter has been discussed with Mr. J.O. Thoma of your staff who has indicated that this extension request is acceptable.

Very truly yours,

J. P. Bayne
Senior Vice President
