Subject: Indian Point 3 Nuclear Power Plant  
Docket No. 50-286  
Inservice Inspection Program

Dear Sir:

In response to your February 25, 1982 letter and in accordance with the requirements of 10 CFR 50.55 (a) the Authority hereby submits five (5) copies of Revision 2 of the Indian Point Unit 3 Inservice Inspection Program for Welds and Supports. This revised program supercedes the previously submitted programs. The changes to the program are indicated in the margins of the appropriate pages with revision bars.

You indicated in your February 25, 1982 letter that the regulations would permit an inspection interval of December 1979 to April 1986 instead of December 1979 to April 1983. The Authority, therefore requests an extension of the inspection interval to April 1986, as permitted by the regulations.

Should you or your staff have any questions please contact Mr. J. Lamberski of my staff.

Very truly yours,

*J.P. Bayne*
