Subject: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Steam Generator Slewing Report

Dear Sir:

Enclosed are six copies of the non-proprietary version of the Indian Point 3 slewing report which was prepared by Westinghouse, entitled "Indian Point Unit 3 Steam Generator Slewing Report Prepared for the Power Authority of the State of New York, WCAP-10146, September, 1982".

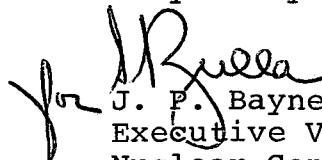

The proprietary version was transmitted to the NRC by letter dated October 18, 1982 (IPN-82-70).

Also enclosed is Westinghouse Authorization CAW-82-62, a non-proprietary document, which supercedes Westinghouse Authorization CAW-82-50 transmitted to the NRC by the aforementioned October 18, 1982 letter.

In addition, it should be noted that all references in the Authority's October 19, 1982 "Application for Amendment to Operating License" to the aforementioned slewing report pertain to Revision 1 of the slewing report.

Should you or your staff have any questions, please contact Mr. P. Kokolakis of my staff.

Very truly yours,

J. P. Bayne
