**General Steel Industries  
1417 State Street  
Granite City, Illinois**

**Attention: Mr. Gordon McMillin  
Vice President & General Manager**

**Gentlemen:**

Thank you for your letter of January 18, 1963, informing us of the steps taken by you to correct those deficiencies in your AEC licensed program which we brought to your attention in our letter of January 7, 1963. These matters will be reviewed during the next inspection of your facilities.

Immediate steps should be taken to assure that an adequate evaluation will be made to determine the quantities of radiation existing in the unrestricted area on the roof above the radiographic facility during use of byproduct material.

With regard to item 4 of our January 7 letter, your alleged noncompliance with 10 CFR 31.106 was based on information obtained during the November 6, 1962 inspection that no inventory was conducted from July 11, 1962 to October 30, 1962. Based on the dates of inventories specified in your letter, it appears that General Steel Industries has conducted quarterly physical inventories as required by 10 CFR 31.106. This matter will be discussed with you during our next inspection.

Your cooperation with us is appreciated.

Very truly yours,

bcc: Compliance Div., HQ )  
Compliance Div., III) w/cpy ltr 1/18/63
