# GENERAL STEEL INDUSTRIES, INC.

GRANITE CITY, ILL.

December 22, 1964

Mr. James Mason, Chief  
Division of Licensing and Regulation  
United States Atomic Energy Commission  
Washington 25, D.C.

Dear Sir:

With reference to Byproduct Material License number 12-8271-1 several changes have been made in the organizational structure of the General Steel Industries radiography program at Granite City, Illinois.

Because of this change, the writer will no longer be associated with the radiography department and therefore, cannot function as radiation safety officer.

A new license renewal application is about ready to be submitted and will incorporate these changes. Mr. Bruce Norris, Manager of NonDestructive Testing, has been fully informed of AEC regulations and is in the process of selecting an interim safety officer.

Any future correspondence should, therefore, be addressed to Mr. Norris.

Mr. Davis and I appreciate the cooperation and association we have had with the AEC and the Illinois Department of Health and believe that Mr. Norris and his new associates will continue the unblemished safety record we have enjoyed at Granite City.

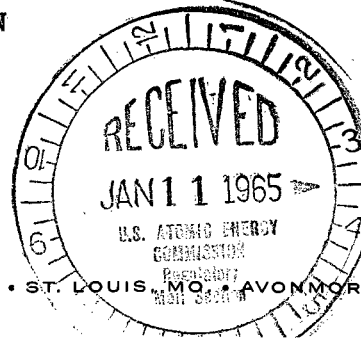

Very truly yours,

GENERAL STEEL INDUSTRIES, INC.

*Robert W. Ripley*  
Robert W. Ripley  
Radiation Safety Officer
