Additional Information Pertaining to
Quality Assurance (QA) Program Description

Dear Sir:

This letter serves to provide additional information pertaining to the Authority's QA Program description, as requested by Messrs. P. K. Eapen and J. Prell of your staff, during an August 8, 1983 telephone conversation.

The Authority's quality assurance procedure entitled "Quality Assurance Program Scope", contains a list of safety related structures, systems and components for Indian Point 3 and J. A. FitzPatrick. The provisions of the Authority's Nuclear Administrative Policy entitled "Organizational Charters", ensure that the requirements of the Authority's QA Program, as applicable to the Nuclear Generation Department, the Engineering Department and the Quality Assurance and Reliability Department are satisfied. The QA responsibilities assigned to these departments were delineated in the April 1977 version of the Quality Assurance Program Manual. These responsibilities will be referenced in the appropriate FSAR sections via the 1984 annual update.

Should you or your staff have any questions regarding this matter, please contact Mr. P. Kokolakis or Mr. J. Gray of my staff.

Very truly yours,

A handwritten signature in cursive script, appearing to read "J. P. Bayne".

J. P. Bayne
