 2. NRC letter (S. A. Varga) to NYPA (J. P. Bayne), dated September 1, 1983 - Request for Additional Information Regarding Revised Technical Specifications for Snubbers

Dear Sir:

This letter is to confirm an agreement reached during telephone conversations between the NRC staff (NRR/NRC Region I) and Authority personnel regarding the submission of a final revision to the subject item by December 9, 1983.

In view of our discussions, the Authority needs this additional time to resolve and incorporate the staff's comments, as addressed in Reference 2. Our final submittal when made will supersede the previous transmittal contained in Reference 1.

As indicated on October 5, 1983 by Mr. Philip Polk, the NRC Project Manager for the Indian Point 3 Nuclear Power Plant, the above submittal date is acceptable for a timely resolution of this item.
